OEL-798/67

23 AUG 1967

MEMORANDUM FOR: Deputy Director for Science and Technology  
ATTENTION: Comptroller  
SUBJECT: Proposed Agency Program Structure  
REFERENCE: Memo to Director of ELINT, etc., Dated  
17 August 1967, Same Subject  
(DD/S&T 3335-67)

1. We have reviewed the two proposals for an Agency program structure and prefer the DD/S&T version. We have no problem with moving Office Management Support from Research and Development to Collection but would object to any proposal to prorate among all categories.

2. One major element of Office of ELINT activity is not called out in either proposal, i.e., Electronic Countermeasures. We recommend that this be a separate element under Research and Development, Collection Systems. If this cannot be negotiated with the Office of Planning, Programming and Budgeting, we could, as a fall back, place it under Delivery Systems and Accessories. All other Office of ELINT activities are adequately covered.
